Because John Glover, (col.) went to Scott's livery stable and by false reputation got Mr. Prewitt Pigg's fine saddle and driver and drove him unmercifully, he is under arrest and will most likely receive the limit of the penalty. Glover is only sixteen years old.

SOCIAL EVENTS

The South-Shishmanian concert recital at the Court-house Wednesday evening, August 30th, under the auspices of the Y. W. M. S., of the Christian Church, was a most delightful and successful affair. Messrs. South and Shishmanian were charmingly assisted by Miss South as accompanist and in several numbers.

Mr. Lindsey South is at present studying law in the University of Virginia, of which he is a licentiate in oratory. He graduated at the New England Conservatory in Oratory and studied voice under Prof. Charles White. He is a finished speaker and has a rich baritone voice.

Mr. John Amar Shishmanian, of Constantinople, Turkey, is also a student of the University of Virginia, and was Mr. South's guest for the summer vacation. Mr. Shishmanian's father is a pure-blood Armenian, though naturalized American. He was educated at the Bible College of Kentucky University. While here he met and married a sister of Byron McClelland, the famous turfman, and upon his graduation took her with him to his far eastern home, to which he returned as a missionary of the Christian Church. He has suffered untold persecution at the hands of the Turks, but has valiantly battled for his Master's cause in the very heart of Islamism. Mr. John Shishmanian is the only son of this union. As soon as he grew to young manhood he and his sister, who is now in Constantinople, were sent to Lexington to be educated at Kentucky University. While a student at Constantinople Mr. Shishmanian, who has a remarkable native talent for music, studied under Hegyi, the Hungarian pianist of the Sultan, and a pupil of Liszt. Arriving at Lexington Mr. Shishmanian's ability and brilliance won him quick recognition. He was the leader of the K. U. Glee Club in 1901-2 and continued his studies in both vocal and instrumental music. He completed the course in the college of the Bible and then graduated from the literary department with signal honors.

For two years he has been a student at the University of Virginia, pursuing the course in international law, and fitting himself to take an important position in the diplomatic corps at the court of the Sultan. He speaks Turkish, Armenian, German, French and a number of other Eastern languages with fluency and is especially adapted and trained for such important work.

At the University of Virginia Mr. Shishmanian has made a brilliant showing. He has been chosen President of the Jeffersonian Oratorical Society, and last year won the Southern intercollegiate oratorical contest, defeating speakers from every college and university of prominence in the South. He has taken much interest in musical matters of Charlottesville, and besides conducting a class in voice is the director of the Christ Church choir. In personal appearance Mr. Shishmanian is very handsome. His Armenian blood, descended from an ancient line of Kings, gives him a richness of coloring decidedly becoming. His gentleness of demeanor and a simple, indefinable suggestion of tenderness seem to recall the subtle romanticism of the Orient.

To Our Eastern Kentucky Friends

Persons interested in mineral lands should not overlook the fact that one of the regular departments of the State Fair is the Department of Mineral Products, which has been placed in the charge of Prof. J. C. Norwood. This department is open for exhibits from the State at large and advantage should be taken of it by persons who have anything of value in the way of clays, coals, ores, etc., to show. It is not a place where "just any old thing" in the way of a "mineral" will be accepted, but exhibits of worth, well arranged for display will be gladly welcomed. There ought to be a good exhibit of the lead and zinc ores, the barite and fluorspar from the Central Kentucky counties especially; owners of such deposits would find it of advantage to display samples at the State Fair. An opportunity is also offered the Lexington coal dealers to make nice displays of the coals from the various Kentucky mines which they represent. The Mineral Exhibit will be in the Floral Hall, on the same floor with the floral display, and will be handsomely installed.
